

YELLOW STICKERS FOR HEALTHY PLANTS

SUITABLE FOR INDOOR & OUTDOOR USE

Attracts and reliably catches fungus gnats, thrips, small flies, aphids and whiteflies.

MAXIMUM CATCHING POWER

Optimized adhesive surface for high attraction

DOUBLE-SIDED ADHESIVE

Double-sided glue – captures more pests for more effective pest control

LONG-LASTING EFFECT

Effective for weeks and catches a large number of pests

NATURAL & CHEMICAL-FREE

Safe for humans, animals and the environment

RELIABLY ATTRACTS:

FUNGUS GNATS

Small, dark midges that often appear in moist soil or near flowers.

THRIPS

Tiny, narrow pests that cause silvery leaf damage.

SMALL FLIES

Very small flying insects that often appear on or near moist areas.

APHIDS

Small lice that feed on shoots and young growth and suck plant sap.

WHITEFLIES

Small white insects that damage plants by sucking sap mostly from the underside of leaves.

EASY TO USE

1 Peel off the protective strip from the pad.

2 Label with date and location if needed.

3 Attach to the stake.

4 Place next to the plant in potting soil.

VERSATILE USE

Houseplants

Greenhouses

Garden

Balcony

Vegetables & Herbs

100% NATURAL & CHEMICAL-FREE

EFFECTIVE AGAINST MANY PESTS

EASY TO USE

LONG-LASTING EFFECT

GOOD TO KNOW

The adhesive stays effective for several weeks. Replace the sticker when it is heavily covered or loses its adhesive strength.
